FOREWORD

Welcome to our guidance document for primary schools which aims to provide key information and practical tools to ensure your school maximises the Primary School PE and Sport Premium funding.

This document helps summarise the most useful information in one place, from both national and local partners - to ensure every school across Merseyside is able to make informed decisions that positively impact upon Physical Education and school sport provision.

1

OVERVIEW

About Merseyside Sports Partnership (MSP)

Merseyside Sports Partnership (MSP) is one of 45 County Sports Partnerships (CSP) in England; the foundations of the organisation were laid in the early 1990s when the local authorities in Merseyside came together to deliver the first cross boundary, high profile, multi-sports event.

The Partnership has since established a successful, inclusive delivery system through a vibrant network of likeminded agencies committed to "improving the quality of life for the people of Merseyside through sport and physical activity". In doing so, the Partnership is uniquely placed to unlock the power of sport and the wider benefits it can bring to local partners and their communities. Through strategic coordination and leadership, MSP brings together public, private and voluntary sector partnerships in pursuit of shared goals driving positive outcomes to inspire all people to be more active more often.

Our priorities are:

- **Participation** – To provide and promote high quality opportunities for all people of all abilities to become involved in sport and physical activity on a regular basis
- **People** – To support the on-going development of coaching and volunteering capacity within the sport and physical activity sector
- **Places** – To ensure that there is access to a range of quality places to play sport and take part in physical activity
- **Partnerships** – To maintain and develop the culture of partnership working that delivers on its promises to customers, local communities and funded bodies
- **Profile** – To raise the profile of and celebrate sport and physical activity achievements

Our guidance document will influence the range of interventions that offer the greatest opportunity to equip children and young people with the skills, confidence and enthusiasm to take up and continue school and community sport.

Thank you for taking the time to read our guidance document, we sincerely hope you find it useful and look forward to hearing your feedback to enable us to improve this document in the future.

What is the Primary School PE and Sport Premium funding?

The Government is providing funding of £150 million per annum for academic years 2013/14 until 2020 to provide new, substantial primary school sport funding. This funding is being jointly provided by the Department for Education, the Department of Health and the Department for Culture, Media and Sport, and will see money going directly to primary school Head Teachers to spend on improving the quality of PE and school sport for all their children.

“Primary school sport is set to be transformed thanks to a £150m-a-year boost that will improve PE and school sport for the youngest pupils and inspire the Olympic and Paralympic stars of the future. New sports funding aims to improve the quality of provision in every state primary school in England.”

Prime Minister announcement March 2013

How much is allocated per school?

Schools will have to spend this funding on improving their provision of PE and school sport. This funding will be calculated by the number of primary-aged pupils (between the ages of 5 and 11) as of the annual schools census in January 2013. In each year all schools with 17 or more primary-aged pupils will receive a lump sum of £8,000 plus a premium of £5 per pupil. Smaller schools, with less than 16 pupils, will receive £500 per pupil.

What is the funding period?

The funding will be paid in each of the two academic years 2013/14 and 2014/15. There has been an additional year of funding, announced Thursday 5th December 2013 to incorporate a further academic year (2015/16).

How can we help?

There are many organisations that offer support to help schools deliver this programme. Details of what is on offer and how to access this support is included within the National Governing Body pages of this document.

As the County Sports Partnership MSP has a role, as defined by the Government, to help and support primary schools to effectively spend your Primary School PE and Sport Premium. MSP are able to provide coordination support services on a needs led basis, including:

- Ensuring communication with schools through local networks (for example through Head Teacher Forums, Local Education Representatives, School Improvement Teams)
- Advice on the use of external, suitably qualified and high quality coaches
- Linking schools to community sports clubs
- Identifying and promoting a range of appropriate Continuous Personal Development (CPD) products and opportunities linked to national and local programmes

DEVELOPING PE AND SCHOOL SPORT

Association for Physical Education (afPE)

afPE is an organisation that supports the delivery of Physical Education and school sport and is the only education subject association in the UK.

They are committed to being the representative organisation of choice for people and organisations delivering or supporting the delivery of Physical Education in schools and in the wider community.

Their purpose is to promote and maintain high standards and safe practice in all aspects and at all levels of Physical Education, influencing developments in Physical Education at national and local levels.

As the subject association for Physical Education, afPE provides quality assured membership services and resources as well as valuable professional support for members and the teaching profession. afPE offers a range of high quality professional development opportunities, regular updates, member journals, advice, insurance cover and dedicated helplines for Health & Safety and legal advice.

Primary School Physical Literacy Framework

What is Physical Literacy?

Physical Literacy can be described as the motivation, confidence, physical competence, knowledge and understanding that provides children with the movement foundation for lifelong participation in physical activity. This also enables them to be physically literate supporting their development as competent, confident and healthy movers.

How will this framework help you?

This framework has been designed to help those working in primary schools with how to best structure PE and school sport provision, so as to ensure maximum opportunity is provided to develop the Physical Literacy of all your pupils.

Why should schools and partners working with schools, consider this?

In a school context, developing Physical Literacy is the foundation of PE and school sport. Physical Literacy is not a programme, it is an outcome of any structured PE and school sport provision, which is achieved more readily if learners encounter a range of age and stage appropriate opportunities. This framework will help you to consider what those age and stage appropriate opportunities need to focus on to maximise the potential to develop the Physical Literacy of all your pupils through PE and school sport.

Primary School Physical Literacy Framework

WHAT CAN MERSEYSIDE SPORTS PARTNERSHIP OFFER YOU?

Merseyside Sports Partnership can provide added value to the development of sport and physical activity opportunities available to primary schools across Merseyside, through its core functions:

- Leadership, advocacy, innovation and promotion
- Strategic business planning and enabling effective coordination
- Partnership development and connectivity
- Capacity building and generating investment
- Insight, research and development
- Promotion of excellence and continuous improvement

If you would like to know more about how Merseyside Sports Partnership can add value to your pupils, your workforce and your school, please visit our website: www.merseysidesport.com or email: admin@merseysidesport.com

Workplace Challenge

The Workplace Challenge is a programme delivered by Merseyside Sports Partnership with an aim to promote and increase the health benefits of sport and physical activity across the workplace. Although this is not a direct offer for your primary school pupils, this is an offer for your workforce. A healthy team will have a positive impact upon employee absenteeism, motivation and team spirit; this will impact upon a healthy school all round.

Community Sports Clubs

There are over 900 community sports clubs across Merseyside. A community sports club is a constituted group of people delivering sport on a regular basis. We encourage all community sports clubs to affiliate with their sport's National Governing Body; by doing so the club will be appropriately insured to deliver community sport. There is a community sports club in Merseyside across all the National Governing Bodies cited in this document; many of those have high quality provision for young people.

Over the last decade we have been working to develop these clubs, so that they are well structured, sustainable and safe for young people to participate in. To measure this we use Sport England's **Clubmark** assessment which is a nationally recognised seal of approval for community clubs. Each club must demonstrate process and practise across a number of criteria in areas such as; club management, community engagement, quality sports programming and child welfare. Once achieved, **Clubmark** requires an annual review and a three yearly reaccreditation process.

Merseyside has an excellent supply of **Clubmarked** Clubs, with over 330 active **Clubmarked** clubs and a further 84 working towards the criteria.

National Governing Bodies of Sport - What is a National Governing Body?

Across England, there are many different National Governing Bodies of Sport (NGBs), who have responsibility for managing their specific sport. Sport England recognises a large number of governing bodies and supports over a hundred sports, in a variety of ways, to help them deliver programmes that get more people active and playing sport.

Between 2013 and 2017, Sport England are investing £500 million into 46 NGBs who have submitted whole sport plans that will create opportunities for more people to play community sport.

All of the governing bodies are experts in their sport and have developed programmes, initiatives and resources to suitably increase the number of people taking part in their sport. Sport England also provides investment that supports the development of talented athletes in 43 different sports.

This section highlights what NGBs can formally offer your primary school and how you can access that offer, both nationally and locally, within Merseyside.

ARCHERY

Archery provides an alternative offer to curriculum delivery from the traditional sports. Its delivery is fully inclusive and all pupils are participating on a level playing field to achieve success.

WHEELCHAIR BASKETBALL

British Wheelchair Basketball is committed to providing opportunities for people to enjoy and play wheelchair basketball. At this time, it is the belief and policy of British Wheelchair Basketball that an emphasis on Physical Literacy is essential with young people. Wheelchair basketball tries to follow the guidelines of the 'long term athlete development' system, with an emphasis on gradually moving to a 'specialism' in wheelchair basketball, as young people mature.

Opportunities in your curriculum	Wheelchair basketball can complement the new PE curriculum by allowing pupils an opportunity to: Key Stage 1 - Master basic movements including throwing and catching, as well as developing balance, agility and coordination, and begin to apply these in a range of activities. Participate in team games, developing simple tactics for attacking and defending. Key Stage 2 - Use throwing and catching in isolation and in combination. Develop flexibility, strength, technique, control and balance. Compare their performances with previous ones and demonstrate improvement to achieve their personal best.

EMPLOYMENT AND DEPLOYMENT OF COACHES

For schools that are looking to deliver Physical Education or school sports, by using some or all of their Primary School PE and Sport Premium to employ or deploy coaches, a dedicated interactive web portal has been developed in order to help guide you through the process.

Developed by sports coach UK - in collaboration with Sport England, the Youth Sport Trust, Association for Physical Education and County Sports Partnership Network – the Primary School Head Teachers' National Web Portal is designed to equip you with the information, knowledge and understanding to successfully and effectively employ, deploy and manage coaches, within a primary school.

The web portal provides step by step guidance, information and resources on the following areas:

- The identification and recruitment of coaches. Templates including an example job description, person specification, interview questions and coach observation forms can all be accessed through the portal
- The nationally agreed minimum standards for deploying coaches, including the appropriate level of coaching qualification required, minimum age and safeguarding requirements
- The qualifications required to deliver individual sports within a primary school setting, as specified by the respective National Governing Body (NGB). In addition, each NGB has recommended additional Continuous Professional Development for coaches working with primary age children

- Maximising the role and contribution of the coach in the school, both within the curriculum and in out of hours learning
- Assessing and evaluating the impact of the coach

Access to the Primary School Head Teachers' Web Portal can be found at:

www.sportcoachuk.org/primary-school-head-teachers-web-portal

As a member of the County Sports Partnership Network, Merseyside Sports Partnership have been directly involved in developing the web portal and advocate its use by all schools who are currently or considering using coaches to deliver activity.

In addition to the web portal, a poster has been developed which summarises key aspects of the guidance relating to the employment and deployment of coaches. A copy of this poster was circulated in correspondence to all primary schools in June 2014. In the event that you did not receive a copy of the poster, or require additional copies, please do not hesitate to contact Merseyside Sports Partnership.

SCHOOL GAMES ORGANISERS, MERSEYSIDE

The information in this document is intended to provide you with just a snap shot of what is on offer at local level, to schools in Merseyside and is by no means an exhaustive list.

The School Games Organiser (SGO) position is an exciting role specifically developed to support the delivery of the Sainsbury's School Games and Change4Life in schools across the country. The role is orientated around five 'core tasks' designed to provide a focus for a SGOs work programme. The core tasks are as follows:

- **Participation:** Drive participation in School Games competition and increase the number of young people taking part in competition
- **Competition for All:** Develop competitive opportunities for all, including the least active
- **Clubs:** Increase regular participation in club sport; involve the least active through Change4Life Sports Clubs and increase links to local clubs
- **Workforce:** Broaden participation opportunities through volunteering and workforce roles
- **Performance:** Establish key performance indicators, target delivery and review progress on a termly basis
